

Thank you for your interest in donating frequent flier miles to support the programs of CVM. Because of the nature of frequent flier mile donations and redemptions, a set of guidelines have been established for those wishing to donate their miles.

The following list of major airlines shows the minimum number of miles needed to make a donation to CVM:

| | |
|---|------------|
| Alaska Airlines/Horizon Air | 20,000 |
| American Airlines | 25,000 |
| Continental Airlines | 25,000 |
| Delta Airlines | 25,000 |
| Southwest Airlines | 16 credits |
| Northwest Airlines | 25,000 |
| United Airlines | 25,000 |
| US Airways/American West | 25,000 |

The miles listed above are the *minimum* number required to redeem a round-trip ticket on these airlines. Due to the restrictions posed by blackout dates, larger mileage contributions are welcomed as this will pose fewer restrictions in the redemption of tickets. Unfortunately, CVM cannot accept the transfer of smaller quantities of miles at this time.

If you are eligible to donate miles to CVM, contact Dr. Kit Flowers at kflowers@cvmusa.org. Please be sure to include the number of miles you are willing to donate, name of the airline, and expiration date of your frequent flier miles. CVM will work to strategically identify a need for your donation, and coordinate with you on the redemption of the ticket.

If you believe you have enough miles to make a donation through an airline not listed above, please let us know. We are open to using miles from any airline, but for simplicity, have only included information on major US carriers above.

Thank you again for your inquiry, and we look forward to communicating with you further. Your generosity is certainly appreciated!
